OFFICIAL SUBMISSION DOCUMENTATION — DOC-NFSU-04

Production Deployment Guide

Vercel, Supabase, and Cloudflare R2 Production Infrastructure Setup

SYSTEM

ISCMS (International Student Compliance System)

TARGET INSTITUTION

NFSU Gandhinagar Campus

VERSION & RELEASE

v1.0.0 Production Release

DATE OF ISSUE

August 2026

1. Production Deployment Architecture

ISCMS is deployed on Vercel Edge Network paired with Supabase Managed PostgreSQL and Cloudflare R2 Storage.

2. Vercel Project Setup

1. Connect GitHub repository `saarthvada1ia26/International-Student-Compliance-Management-System`.
2. Select **Next.js** framework preset.
3. Configure production Environment Variables under Project Settings.
4. Deploy main branch to `https://iscms.nfsu.ac.in`.

3. Domain, HTTPS & Security Headers

Enforce HTTPS redirection, Strict-Transport-Security (HSTS), Content-Security-Policy (CSP), and X-Frame-Options in `next.config.js`.
