

NATIONAL FORENSIC SCIENCES UNIVERSITY

An Institution of National Importance under Ministry of Home Affairs, Govt. of India

OFFICIAL SUBMISSION DOCUMENTATION — DOC-NFSU-05

System Architecture Specification

End-to-End Enterprise Architecture, Flowcharts, and Component Topologies

SYSTEM

ISCMS (International Student Compliance System)

TARGET INSTITUTION

NFSU Gandhinagar Campus

VERSION & RELEASE

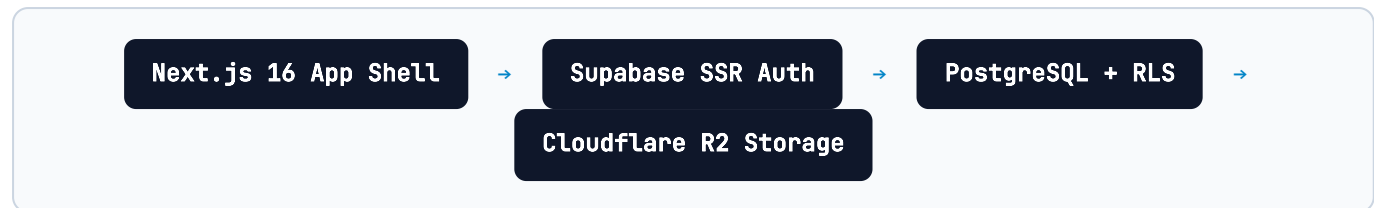

v1.0.0 Production Release

DATE OF ISSUE

August 2026

1. System Topology Overview

The ISCMS application utilizes Next.js 16 App Router with Turbopack, React 19, Supabase RLS, Cloudflare R2, and automated notification engines.

2. Component Interaction & Security Flow

All client requests pass through Next.js Middleware ([proxy.ts](#) / [middleware.ts](#)) which validates JWT auth tokens, evaluates system initialization state, and enforces role-based authorization.
